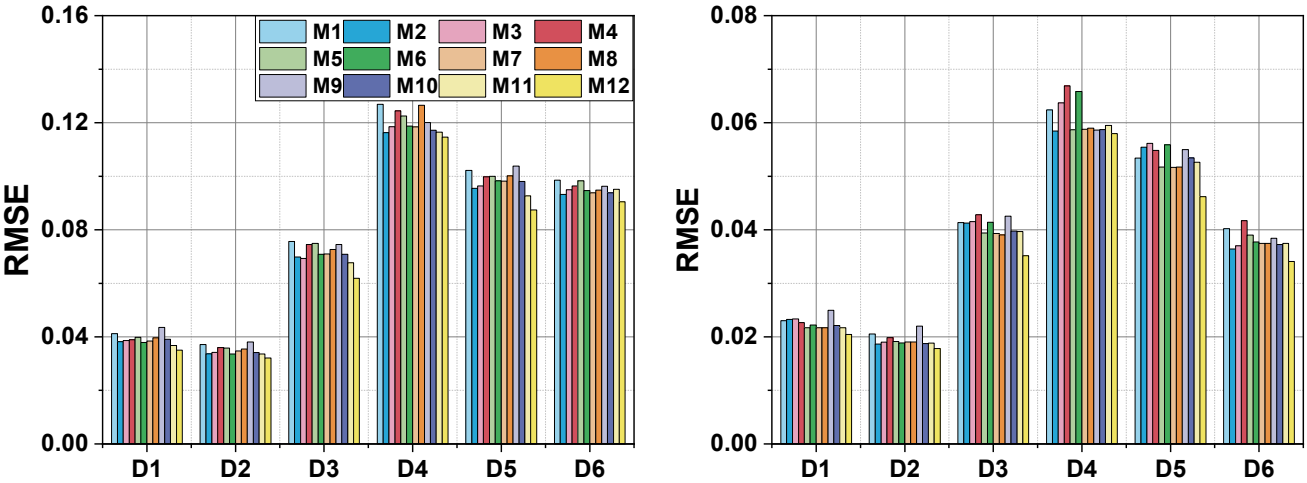
A Node-collaboration-informed Graph Convolutional Network for Highly-Accurate Representation to Undirected Weighted Graph Supplementary File

Ye Yuan, *Member, IEEE*, Ying Wang, and Xin Luo, *Senior Member, IEEE*

I. Introduction

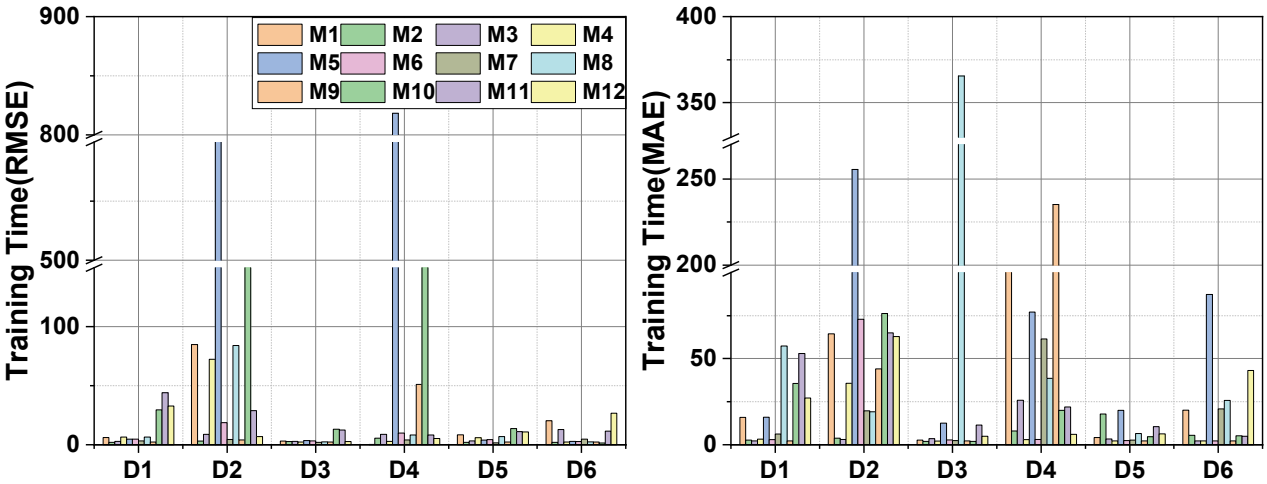
This is the supplementary file for the paper entitled "*A Node-collaboration-informed Graph Convolutional Network for Highly-Accurate Representation to Undirected Weighted Graph*". It mainly contains the figures of experimental results.

II. Supplementary Figures



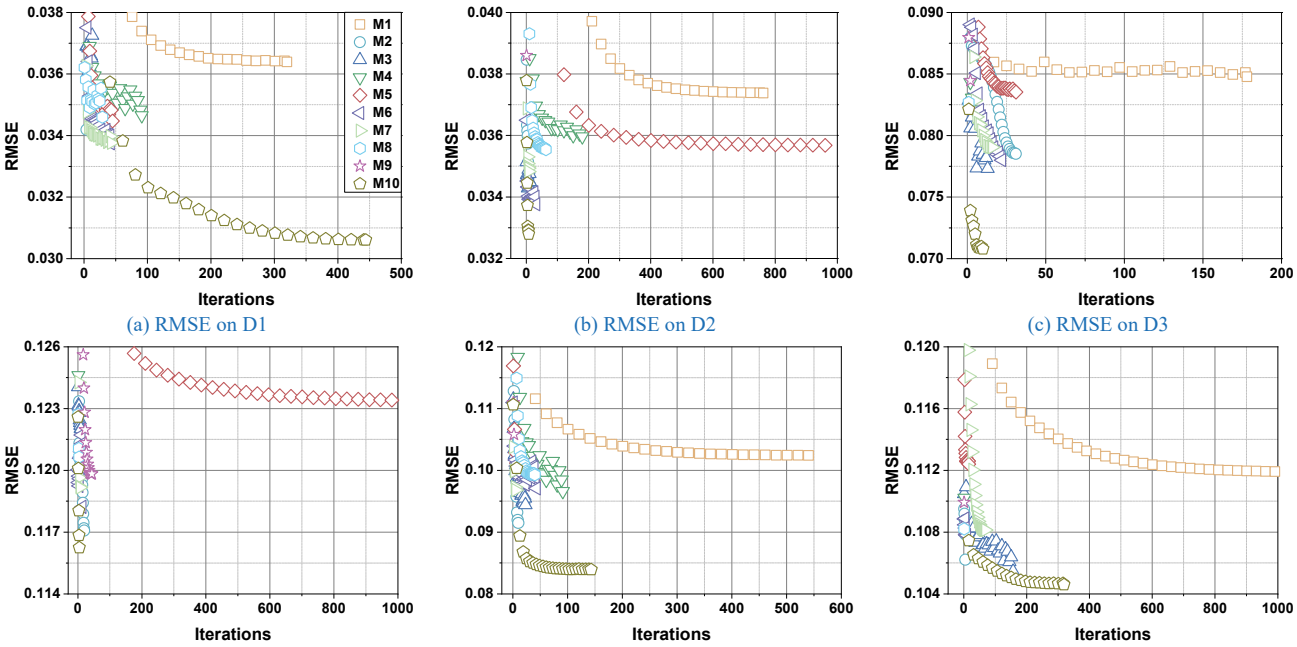
(a) Comparison results on RMSE (b) Comparison results on MAE

Fig. S1. Lowest RMSE/MAE of compared models; all panels share (a)'s legend.



(a) Comparison results on Training time of RMSE (b) Comparison results on Training time of MAE

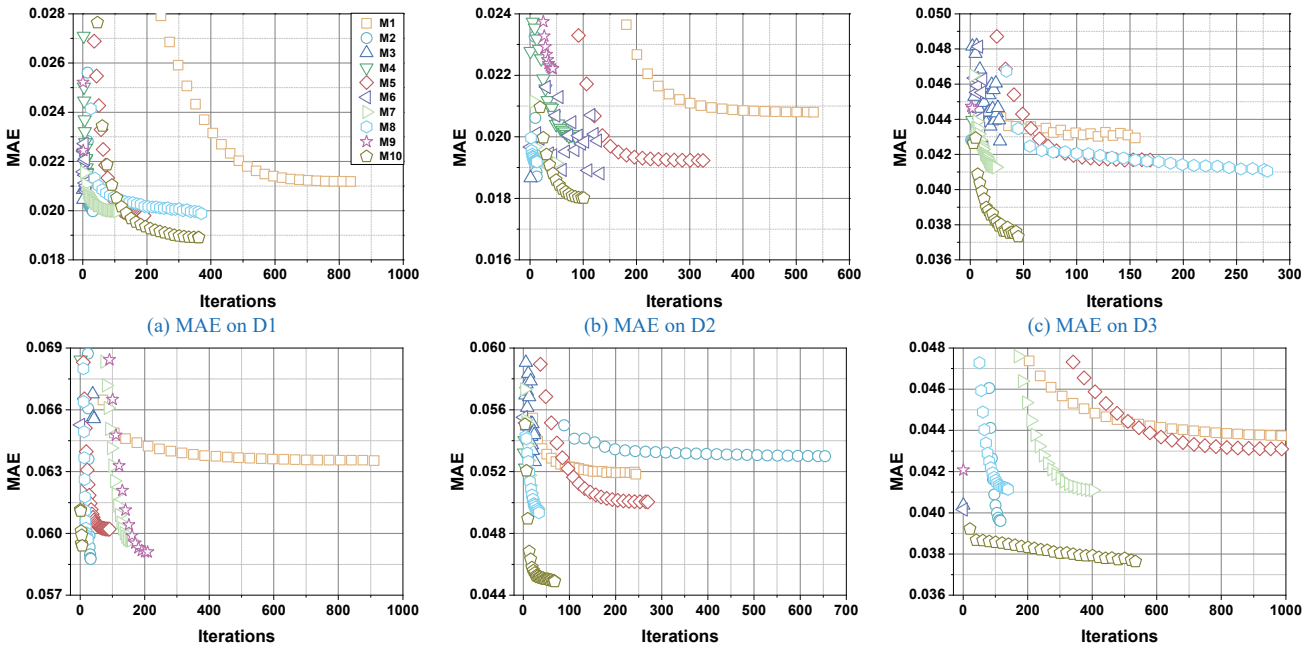
Fig. S2. Training time of compared models; all panels share (a)'s legend.



(a) RMSE on D1 (b) RMSE on D2 (c) RMSE on D3

(d) RMSE on D4 (e) RMSE on D5 (f) RMSE on D6

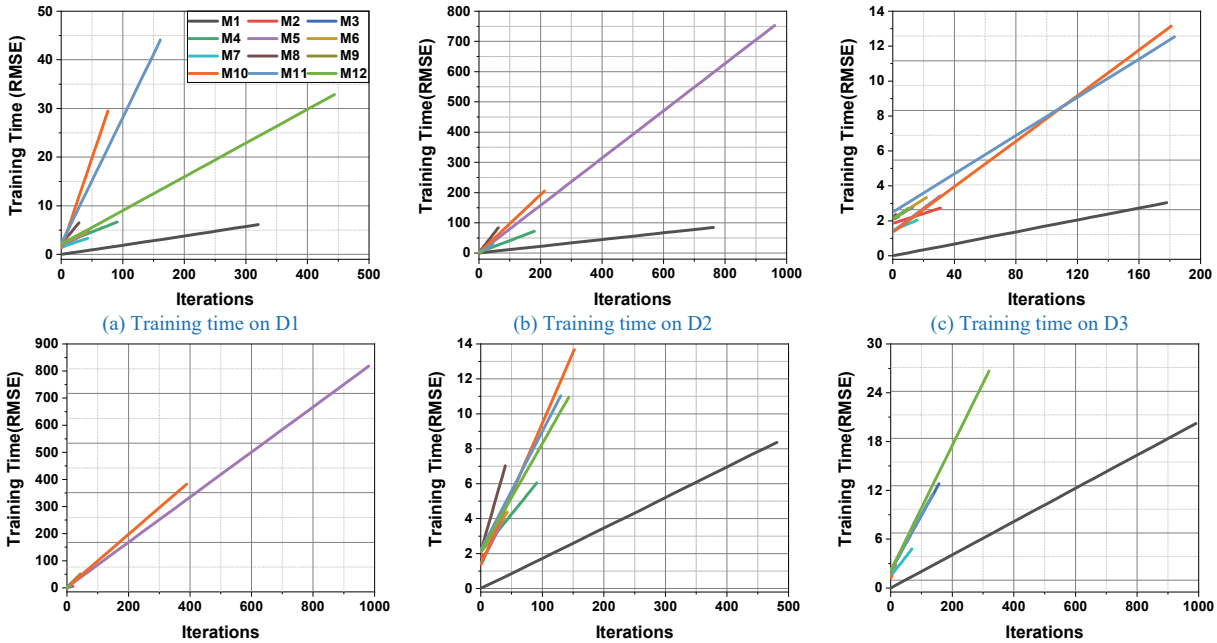
Fig. S3. Training curves of compared models on RMSE; all panels share panel (a)'s legend.



(a) MAE on D1 (b) MAE on D2 (c) MAE on D3

(d) MAE on D4 (e) MAE on D5 (f) MAE on D6

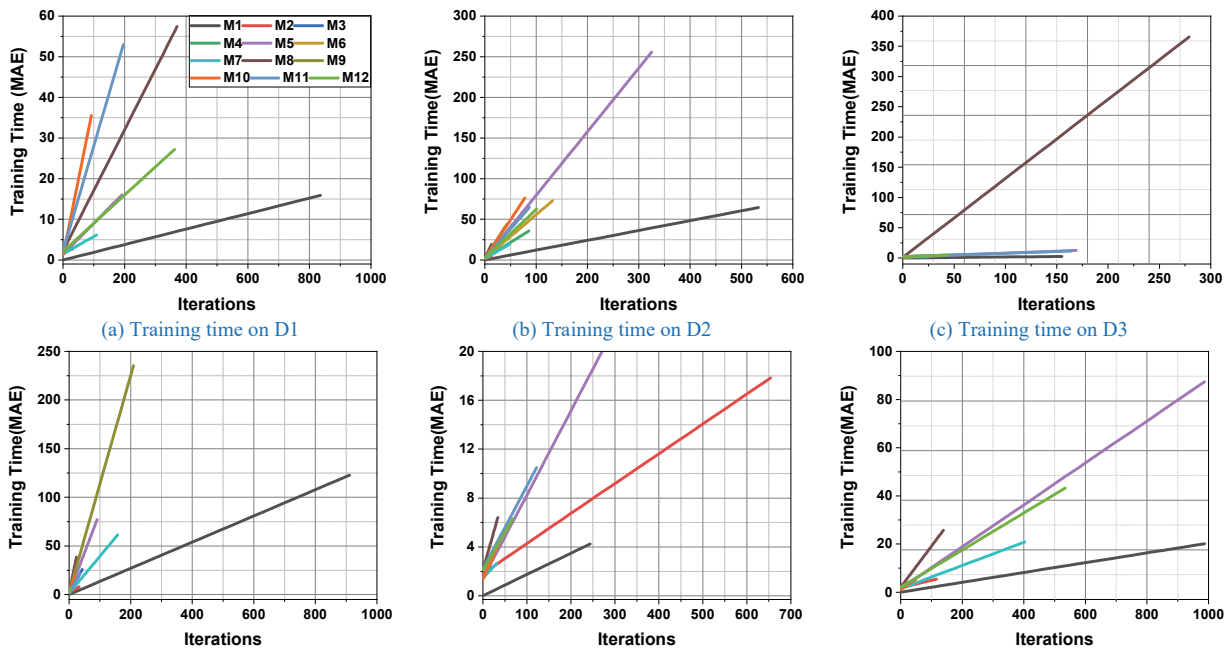
Fig. S4. Training curves of compared models on MAE; all panels share panel (a)'s legend.



(a) Training time on D1 (b) Training time on D2 (c) Training time on D3

(d) Training time on D4 (e) Training time on D5 (f) Training time on D6

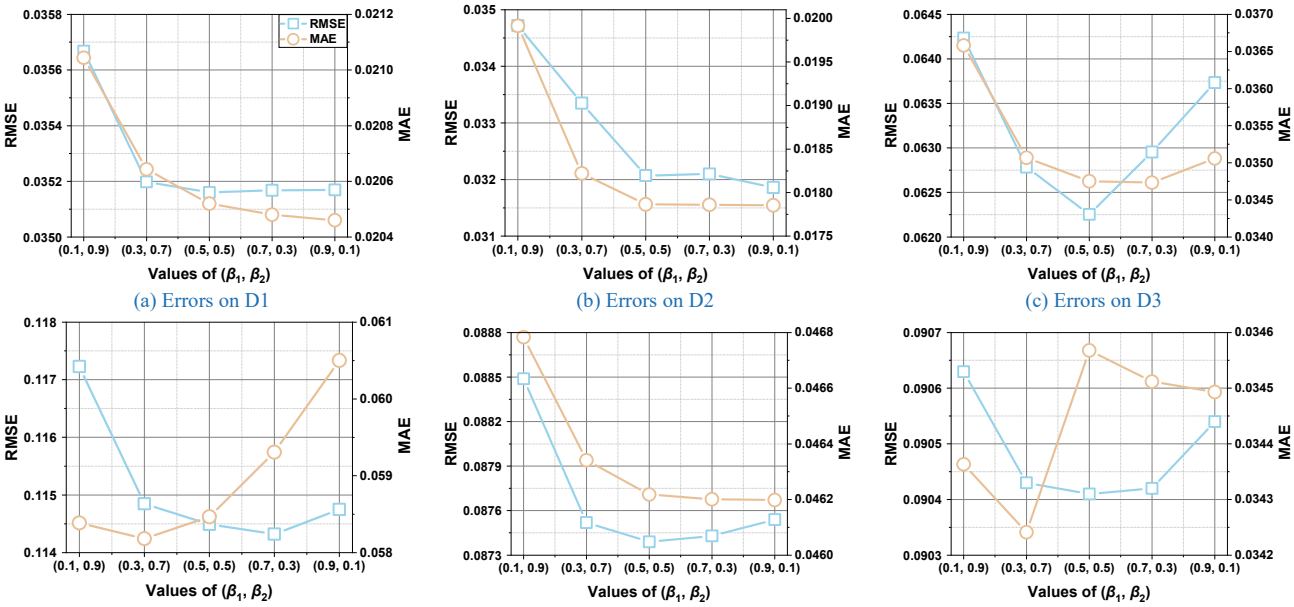
Fig. S5. Training time curves of compared models on RMSE; all panels share panel (a)'s legend.



(a) Training time on D1 (b) Training time on D2 (c) Training time on D3

(d) Training time on D4 (e) Training time on D5 (f) Training time on D6

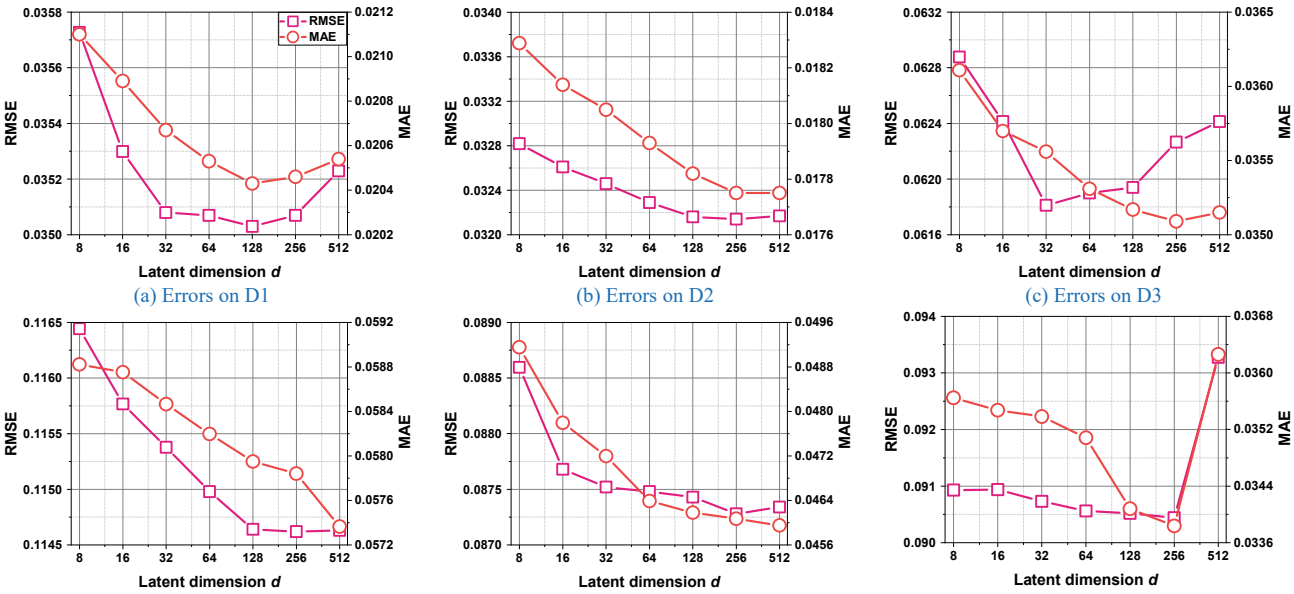
Fig. S6. Training time curves of compared models on MAE; all panels share panel (a)'s legend.



(a) Errors on D1 (b) Errors on D2 (c) Errors on D3

(d) Errors on D4 € Errors on D5 (f) Errors on D6

Fig. S7. NGCN's estimation errors as β_1 and $\beta 2$ vary; all panels share panel (a)'s legend.



(a) Errors on D1 (b) Errors on D2 (c) Errors on D3

(d) Errors on D4 (e) Errors on D5 (f) Errors on D6

Fig. S8. NGCN's estimation errors as d varies; all panels share panel (a)'s legend.
